

# MEETING EVALUATION, BSOM 2004

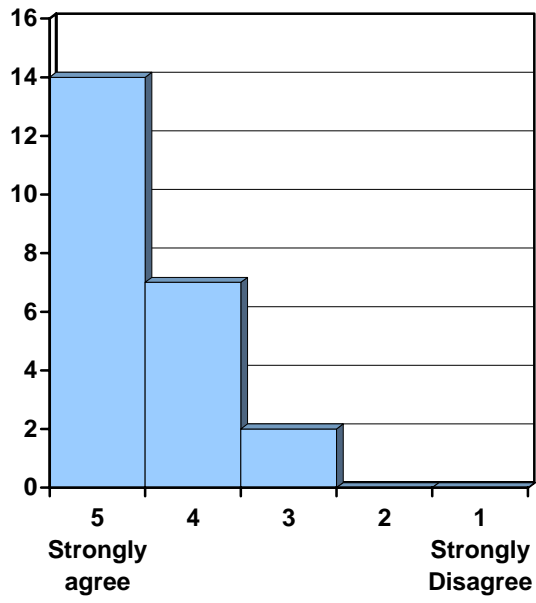

The meeting was relevant to my educational needs

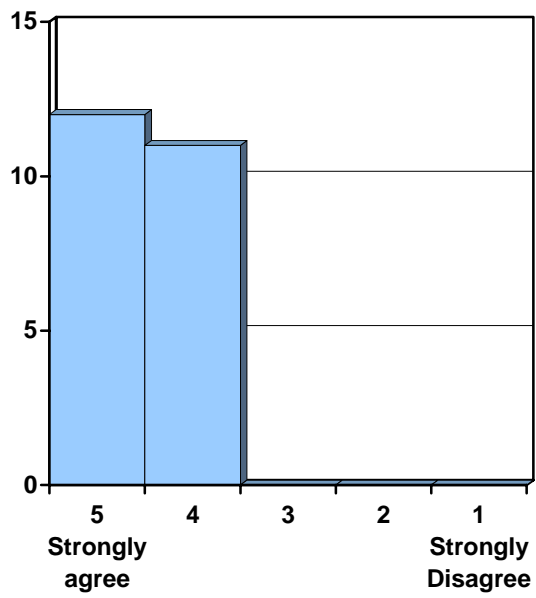

I learnt a great deal from this event

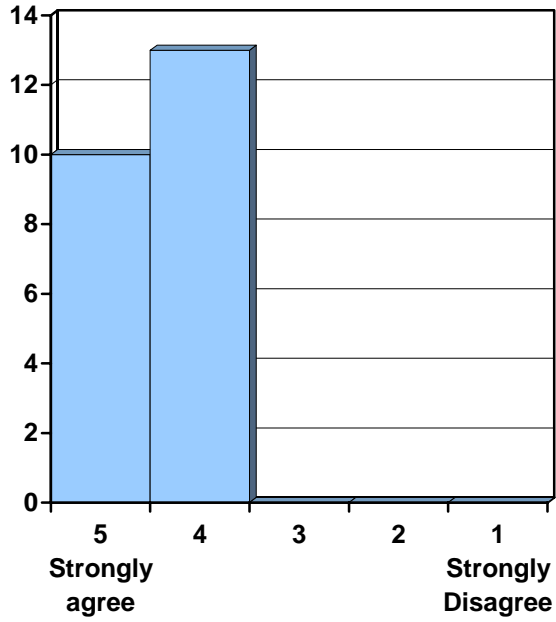

**The meeting was very well structured**

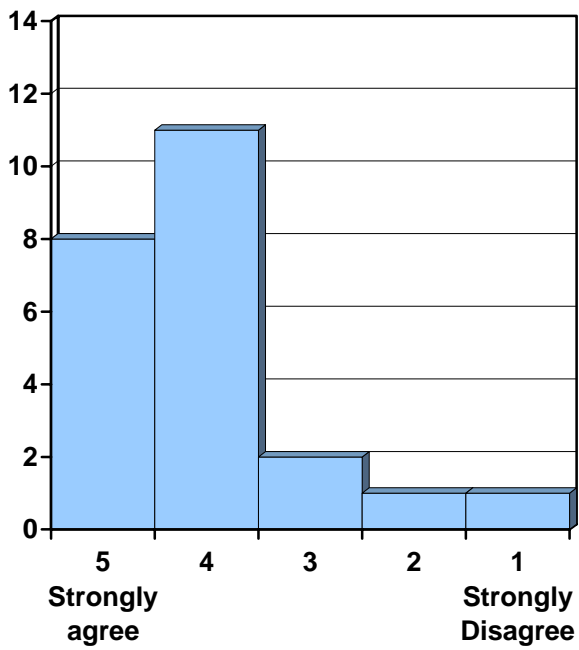

**The speakers communicated effectively**

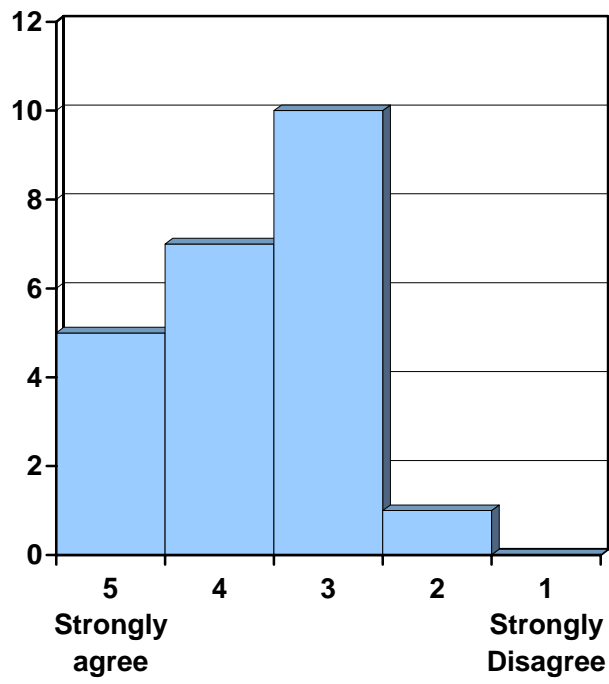

**The information was well presented**

**There was sufficient time available for discussion**

### This meeting will change my clinical practice

## MEETING EVALUATION, BSOM 2004

### COMMENTS

1. Extremely interesting and enjoyable. Handouts would of course be desirable but perhaps not possible.
2. Very good. Glasgow presentations very good.
3. Good speakers – very educational. Overall a pleasant and civilised meeting in comparison to the annual meetings I have been to previously – looking forwards to the next one in the future.
4. It was good to have time for networking and discussions but more interactive sessions would be helpful where everyone can contribute.
5. Overall very well organised.
6. Well-structured session. Lecture theatre a little light resulting in difficulties in slide projection.
7. Thank you.
